

If printed 17 inches tall (from black-outlined edge to black-outlined edge) the scale of these drawings is 1/350.

NOTES

DECK 5
The layout of the forward half of this deck is very similar to the FJ design for the Constitution-class ship. I adjusted the turbo-elevator shafts so that they are now exactly 120° apart. There is also one turbo-elevator storage space.

The forward arc of the outermost ring (around the Officers' Quarters) contains Batteries, Air Conditioning, Water Pumps, Circuit Breakers, etc. and one bank of 2 Phasers.
There are 5 corridors providing access, plus interconnecting doors.

In the center are 3 relaxation areas. The one at the front is a Lounge with doors for privacy. The other two are Messrooms, serviced by food dispensers which are directly connected to the Food Preparation area on Deck 8.

Main Engineering is at the rear, surrounded by the Hangar Bays and Deuterium Tanks.

At the extreme port and starboard are more Emergency Batteries.

Stairs lead down to Environmental Engineering.

Three Observation Galleries are at the front of the Hangar Bay.

EMERGENCY STANDARD GASES (3 PLACES)

PHASERS (3 PLACES)

VENTILATION DUCT SYSTEM

EMERGENCY BATTERIES (3 PLACES)

AIR CONDITIONING MACHINERY (4 PLACES)

WATER PRESSURE SYSTEM (2 PLACES)

CIRCUIT BREAKERS (P/S)

IMPULSE REACTORS (P/S)

IMPULSE ENGINES

MAIN ENGINEERING

DECK 5: SENIOR OFFICERS' QUARTERS
